RE: MISD Cafeteria/Eating/Preparation Areas

Mr. Green:

This letter is to inform you that upon inspection of the food areas at all the campuses all was found to be in good order. I was very impressed with the knowledge that all employees in the food services areas had. Each employee was very pleasant, well dressed in clean attire, hair restraints were in use and all could answer all questions that were asked with knowledge of their duties. All campuses had food service managers, which are required by the State. I commend your employees with a job well done. Please note that some campuses (TE Baxter Elementary, JR Irwin Elementary and Frank Seale Middle School) still have some issues with the walk in coolers and freezers. The appliances are not safe for your employees and are in need of repair. I have reported this to the maintenance department and they have informed me that these areas are of concern to them too and are to be repaired during the summer months.

Once again, thank you for making sure the employees have knowledge in the food service field and use it in their duties. If you should need any information or have questions do not hesitate to call us.

Sincerely,

A handwritten signature in black ink, appearing to read "Donna Brown".
